Wireless Key Fob & Key Pad Solution

... easy, low cost, flexible & fast to fit!

ZENDit®

Wireless Key Fob Transmitters (1-4 buttons)

... perfect for easy control of CCTV, lights, alarm panels, even gates !!

- ✓ Compact Design
- ✓ Up to 50m Range
- ✓ Choice of Black or White
- ✓ Sliding Button Guard

The Zendit® key fobs offer an effective, low cost method for wirefree control of up to 4 electronic devices.

1, 2, 3 and 4 channel fobs are available in black and white. The small compact fobs have a working range of up to 50m and a handy sliding button guard prevents accidental activation.

The compact key fob design means you always have it with you for easy access to control devices of your choice.

50m Range!

WIR311

Black Code	White Code	Description
WIR301B	WIR301W	1 Ch Key Fob TX
WIR302B	WIR302W	2 Ch Key Fob TX
WIR303B	WIR303W	3 Ch Key Fob TX
WIR304B	WIR304W	4 Ch Key Fob TX

100m Range!

Wireless Key Pads

... use as an alternative or in addition to a key fob to trigger the RX

- ✓ 2 Channels
- ✓ Up to 100m Range
- ✓ Metal Cased
- ✓ 6 Digit Code
- ✓ Illuminating Key Pad
- ✓ Battery Powered

Externally Rated !!

Battery Powered

Adding a fixed place for an approved user to access a secure area by simply keying in a 6 digit entry code to activate the opening of a door or gate up to 100 metres away, the key pad design has none of the risks associated with staff losing or forgetting their key fobs.

SPECIFICATION

Internal / External Use
CR2450 Battery (Inc)
Up to 100m Outdoor Range
Frequency 433.92Mhz
2 Channels
H90 x W70 x D40mm

Black model available

Anti-tamper lock

These compact key pads are available in black or white to suit the installation and have 2 transmission channels to control up to 2 separate devices. A transparent weather shield protects the key pad and allows installation in an external location whilst a back lit key pad makes night time use easier.

Button Control of Relays!

Watch the video here on our new YouTube channel "System Q CCTV"

Wireless Receivers (1 or 4 Ch)

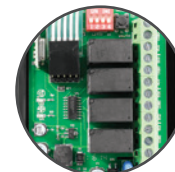

... pair in seconds for complete wireless control !

- ✓ Volt Free Outputs
- ✓ Latchable or Non-Latchable
- ✓ 1A 30V DC Load
- ✓ Button Relay Control (on 4 Ch)

Compatible with any of the key fobs or key pads in the range and available in a choice of black or white. For extra security our receivers use rolling codes which change on every use - this means they are never duplicated.

1 Channel Receiver

Pair this with the 1 button key fob for use as a panic button or simple control of a single device, or with the key pad to open one electric door or gate.

4 Ch PCB

SPECIFICATION

12V DC 300mA (4 Ch)
Relay 1A 30V DC
Rolling Code 30
Frequency 433.92Mhz

1 Ch:
H58 x W34 x D20mm
4 Ch:
H135x W78x D30mm

4 Channel Receiver

This unit can receive a trigger from all 4 buttons of a key fob or both channels of the key pad.

The receiver also has 4 push button controls on the front of the unit itself which when pressed simulate the same as the key fob buttons being pressed activating any of the 4 channels in use. This means that the 4 relays can be activated without a key fob or key pad.

CR2032 & CR2450 batteries included

Code	Description
WIR401	1 Ch RX
WIR404B	4 Ch RX (Blk)
WIR404W	4 Ch RX (Wht)
